## Window Cleaning Services

# Procedures for Cleaning...

Updated 1st June 2020

### Introduction

During the Covid-19 outbreak, we are asking and advising our clients of the following:

### Self Isolating

For anyone that is self isolating whether due to health conditions or they have recently shown symptoms or diagnosed with Covid-19 you are requested to please advise us if this describes your household at the moment. We will skip this clean for you.

### Last Minute Changes

Schedules, routes and cleaners may change at last minute, our apologies in advance if this occurs.

### Backs of Properties

No backs will be cleaned IF we have to go through any of the property for the foreseeable future. This includes going through a garage or closed side access. There will also be no inside cleaning.

### On The Day Payers

We have online payment methods at your disposal, but if you still wish to continue to pay cash, please contact the office or wait for your text the day before for the relevant information.

### Social Distancing

Social distancing of 2M will be observed by our cleaners at all times. On small pavements he will step as far back as is possible without standing in the road.

Many thanks for your understanding. Stay safe.
